About ELK:

As a Denver-based 501(c)3, ELK was established in 1996 by two wildlife biologists who saw a growing need to introduce and educate Colorado's urban youth about science, leadership and careers. Since ELK's founding, 70,000 youth and families of color have been introduced to and immersed in science education, and many youth have become first-generation high school graduates and college students.
