Williams Production to Discuss Cluster Planning: *Reduced Time, Reduced Cost and Reduced Impact of Developing Natural Gas in the Piceance Basin*

(DENVER) – The Independent Petroleum Association of Mountain States (IPAMS) will host Robert Vincent, Production Engineering Manager with Williams Production as part of IPAMS' monthly *Lunch & Learn* series. Mr. Vincent will give a presentation on "Cluster Planning: Reduced Time, Reduced Cost and Reduced Impact of Developing Natural Gas in the Piceance Basin."

Integration of new technologies and best practices with a structured process approach has resulted in Williams' Production developing natural gas resources in less time, at a reduced cost and with less impact to the environment in the Piceance Basin of western Colorado. New technologies and best practices provide the means to develop natural gas efficiently and with less impact. However, even greater gains are being achieved by coupling these practices with a systematic, structured process approach to longer-term planning.

Who: Robert Vincent, Production Engineering Manager with Williams Production

What: Mr. Vincent will give a presentation on "Cluster Planning: Reduced Time, Reduced Cost and Reduced Impact of Developing Natural Gas in the Piceance Basin."

When: Monday, November 12, 2007
11:30am-1:00pm

Where: John D. Hershner Room
Wells Fargo Building, 1700 Lincoln St.
Denver, CO
